THE SPECULATIVE MARKETS

Enormous Receipts Proved Powerless to Depress Wheat Yesterday.

NOVEMBER AND DECEMBER CORN BROKE

Local Receipts of Wheat Were Much Larger Than Expected and Inspectors Were Compelled to Work Throughout Sunday to Handle the Supply.

CRICAGO, Ill., Oct. 10.- Enormous receipts proved powerless today to depress wheat-The Russian drouth and its American counterpart were the principal life savers. Corn. in the absence of such sustainers, had a moderate break in November and December deliveries and comparatively little in May. October fard lumined un die, but otherwise provisions are framalize to be lower than Saturday night. Wheat shows a gain of from 4c to 4c and corn a loss of he for November, he for

December and he for May. Local wheat receipts were much larger than expected, the inspectors having worked Sunday, and the del veries in the northwest were prodigious-1,195 cars. In addition to this de cided weakness in corn and the indications were that the visible supply would show an unexpectedly large in-

were that the visible supply would show an anexpectedly large tocrease. But these bearish factors were offset by reports that the crop situation in Russia was critical; that there had been no rain for four months and the ground could not be proved and that there was dancer of repetition of last year's famine; this was pastially confirmed by a came from London, reporting an advance on Russian wheat there of sof. There was no sign of any break of the drouth in the winter wheat districts of the scountry. The visible supply as finally reported showed an increase in wheat of 4,38,000 bu, or \$30,000 to. Built news became more plentiful late in the day. Minneapois disputeres reported bankers as sending less money to the country, and farmers wheat deliveres failing off. The English wheat crop estimated at \$25 per cent in yield compared with 12 per cent a year ago. There was also take of the United States government crop report showing an average yield below it but his face. The Indian wheat shipments for the week were next to nothing at 30,000 bu. In wheat and floor, from the four Atlantic bor's. A big item in this report was \$2,000 bits of flour cleared from Boston. The opening was a shade better than Saturday's closing, and fluctuations confined within a see fam. Corn who decidedly weak on the fine weather, the big receipts and on expectation that the government report would show an improvement over the Suptember condition.

weather, the big receipts and on expectation that the government report would show an improvement over the September condition, 79.5. The local inspection was 1,099 cars, where only 50 cars had been looked for. The increase was largely due to Sunday inspection on many of the roads. There was free selling, little demand and general weakness. The strength in wheat helped corn toward the close. The opening was a trifle under the final figures of Saturday, and this was followed by a decline of from \$\frac{1}{2}\$ct o \$\frac{1}{2}\$c, with a reaction later of from \$\frac{1}{2}\$ct to \$\frac{1}{2}\$c.

Onts followed the fluctuations of corn pretty closely, options being quoted finally at from \$\frac{1}{2}\$ct o \$\frac{1}{2}\$c, options being quoted finally at from \$\frac{1}{2}\$ct o \$\frac{1}{2}\$c. closely, options being quoted finally at from 3/e to 3/e lower.

In provisions operations were mainly confined to fruitless watching of a few leaders. The market started weak on account of the heavy receipts of hogs. Packers and others are beginning to take less confidently of heavy future receipts of hogs and lower prices for them, although it is both their interest and their practice to profess a belief in a heavy run of hogs. Most of the day January land held around \$7.15 to 7.175, while the October, without support, went out from \$8.00 to \$7.05. At this point liately began bidding for it, and jumped the price to 28.37%, without getting much.

Estimated receipts for tomorrow: Wheat, 610 cars; corn. 600 cars; oats, 310 cars; hogs. 22,000 head.

Treights were firmer, with a fair demand at 2%c for wheat and 2%c for corn to Buffalo

Traders' Talk. CHICAGO, Ill., Oct. 10.—Counselman & Day to Cockrell Bros Coundiss on company: The leading grain markets were dull and all classes of traders inclined to suspend operations until after the government report was received. Except for this feature wheat would probably have advanced on higher cables and light exports from India. As it was the mar-ket was more directly influenced by liberal probably have advanced on higher cables and light exports from India. As it was the market was more directly influenced by liberal receipts and a larzely increased visible supply, which operated slightly in favor of buyers. The reneral condition of the market is improving and we continue to advise buying on breaks. Corn was very quiet, and business mostly done by local receivers and shippers who continue to be persistent bears on account of increasing supplies and a stack demand from consumers. The wonderful weather has taken the snap out of speculation. Outs were quiet. The principal features were October sales by receivers and elevator people and moderate buying of May futures in anticipation of a bullish government report. The manipulation in provisions tried to galvanize the market, but it gave no appear ance of life. Both sides are obstinate and the deadlock may not be broken until the month goes out.

out cult Ago, Ill., Oct i0.—F. G. Logan & Co. to Dun-can, Hollinger & Co.—We have had a fairly steady wheat market today. It opened strong at Tike for December, soid at TikesTike, closed at the increase of ise. The increasy in the visible supily of 3,35,500 bushels had very little influence on prices wheater throughout the winter wheat belt 3.35.000 bushes had very little influence on prices. The dry weather throughout the winter wheat belt is still a buil factor. This with the heavy exports more than counterbalanced the heavy receipts in the northwest Cables are rather dull. We look for them to improve owing to the short supplies from India. Advices from the northwest point to much lighter receipts ere the month closes. With a let-up in them prices will go higher. There has been very little life to the corn market. May opened at 475c sold at 475c and closed at 475c bid. The government report due today will have some influence on values. We feel friendly to corn and believe purchases on all weak spots will make money. We think cats safe to buy. In hog product bushess was light; the market, however, was very firm, January pork opened at \$25.00 and closed

money. We think oats safe to buy. In hog product business was light, the market, however, was very firm. January pork opened at \$12.50 and closed \$12.55. All indications are for lighter hog receipts and higher prices.

Chicago, Ill., Oct. 10.—Kennett, Hopkins & Co. to S. A. McWhorter: Wheat was very duil with pienty of news but conflicting. Foreign conditions were decidedly buillish, but the liminense domestic receipts have a tendency to paralyzo trade and prevent any material advance. It is declared on what seems good anthority that the drouth in southern Russia threatens an entire failure of the next winter wheat cop and a repetition of last year's famine. The India shipments have dwindled down to barely one mederate cargo a week. The dry weather here is threatening the next crop. Millers say that there is a good demand for flour and many are sold weeks shead. There is apparently nothing to prevent a substantial advance but big receipts and our large visible supply. Exports are at the rate of more than 20,000,00 per year. It is evident that we have not the surplus to provide for such a demand and if it continues a searcity at the Other end of the season is assured. That it will continue and even increase seems more than probable as india is no longer an exporting factor and it looks as if Russia would soon be on the same list. Corn and oats were easier, Corn was expecially depressed by large offerings of ear proist. Corn and cats were easier. Corn was espec-latly depressed by large offerings of ear pro-perty and near by options. The export trade on these grains is very disappeinting. In provisions there was a small business and little change. October lard sold down, but when a packer tried to buy he advanced the price nearly file without settings.

lic without getting any. STOCKS AND BONDS.

More Animation Was Shown in Securitie

Thun Was Expected. New York. Oct. 10.—The stock market showed more animation today than expected in view of the Columbus celebration and the approaching holiday. The undertone of peculation was firm throughout and a higher range of quotations generally prevailed, but the really important movement of the day was in the industrial group. Nearly all of of the shares scored snarp advances. The only ones that declined were American Sugar and General Electric and these closed with net losses of only % a point. The atmost activity was in Distilling and Cattlefeeding and Chicago Gas, both of which were taken is round a mounts for local and western account. Colorado Coal rose is to 43%, and Colorado Fuel jumped 8 noints to par on advices that a materity of the honors had assented to the proposed consolidation, and that the comproposed consolination, and that the companies are already being worked in h rmony. The ratiroad list improved a to 1's per cent outside of Reading, which first fell off from 5's, and then rose to 50 on advice that the Pennsylvania Railroad company had advanced to figures to correspond with those of Reading. The stories were subsequently denied, and Reading fell back to 58's. The market was influenced to some extent by a reduction of a fail cent in the posted rates of foreign exchange and by the free offerings of money by the trust companies after the interest got up to 9 per cent. The supply of funds from the source named led to a decline in maney rates to 25 th per cent. In the late transactions Distilling and Cattlefeeding reacted a per cent, and American Tobacco 1's per cent, but other stocks hed up we'l and the market closed guide and firm.

The Post says: Of Chicago Gas it is only fair to say that deep teal that is objectionable, both in its past history and its present

form of incorporation, it is apparently being honestly managed and has an unquestionable field of profit in its business. The recent legal attacks upon it have been beneath contempt. It is, however very far from being a stock for outside investors to meddle with and its speculative status in Wall street is even yet outremely dubious.

LIVE STOCK MARKETS. Cattle Plenty, with Prices Silghtly Lower-Hogs Scarce and Firm.

OMAHA, Oct. 10.—The week opens with a big un of cattle and fair or rather light receipts of hogs and sheep. of hogs and sheep.
The supply of cattle came within 73 head of the previous heavest run, 6,784 head, which was the number received October 19 last year. There was hardly a load of corn-fed cattle in the yards, the supply being almost entirely rangers, and outside of half a dozen loads the quality was nothing extra. Trade was rangers, and obtaine of nair a dozen toads the quality was nothing extra. Trade was necessarily a little slow and tedious, Good to choice buf steers were in good demand and sold readily at pretty close to stendy prices but when it came to the ordinary grades prices generally shaded down and the movement was rather slugglish. Considering the very heavy receipts the market was in very fair shape and marriy everything destrable had conved

celpts the market was in very fair shape and nearly everything desirable had enanged hands before the close.

The cow trade was tolerably brisk with prices very uneven but as a rule not far from steady. Poor to very zool cows and helfers sell at from \$1.00 to \$2.30, the bulk of the fair to good stuffat\$1.00 to \$2.30, the bulk of the fair to good stuffat\$1.00 to \$2.30, Bulls, oxens and stags were slow at from \$1.25 to \$2.65. Calves and yearlings unchanged at from \$1.75 to \$4.00.

There was a good lively trade in stockers and feeders and prices were well maintained on all desirable holdings. Commonish underweight stuff was no easier to sell than last week and prices were rather low. Representative sales:

BURNED A BRIDGE.

Burlington Traffic Suspended by a Fire-Railway Notes and Personals. Sunday traffic on the Burlington between Pacific Junction and Plattsmouth was at a standstill, due to the burning of thir-teen bents of a bridge between the points mentloned. The fire was discovered by a small boy, who reported the fact to the section men in time to arrest the freight and the fast mail, then overdue. The mishap necessitated a transfer of business by way of Council Bluffs and Omaha, all the bassenger and freight trains going through this city during the day and night. At 8:30 yesterday mor-ning the bridge was again open for traffic.

To Hand e the Grain. Already the railroads are beginning to feel the movement of grain toward the centers of trade and the cry for cars rivals that historic cry that came out of Macedonia. Milwaukee is already negotiating for building of a couple of hundred cars in time for the movement of corn. The Rock Island would like to borrow 1,000 cars from some railroad company that has a surplus of that commedity while the Burlington and Union Pacific have sent out tracers for an available rolling stock. Still the situation is by no means as strained as it will be within a month, and it looks now as if Nebraska would feel to a greater extent than ever the shortage of cars on all the railroads in the state.

About Railway Men.

Ex-Governor Rufus B. Bullock of Georgia, now government director of the Union Pacific, is in the city, and with Superintend-ent Nichols of the Overland, was arranging a schedule whereby he could inspect the system by davlight. Governor Bullock will leave Wednesday on his special car and will probably be accompanied by Superintendent

Mr. A. E. Hutchinson, stationer of the Union Pacific, left Sunday for St. Thomas, Can., where he will be married on Wednesday to a well known young lady of that city Twenty-seven delegates from Omaha to the annual meeting of the grand lodge, Knights of Pythias, which meets in Geneva today, left yesterday morning at 9 o'clock over the Fremont, Elkhorn & Missouri Valley railway.

E. J. Foster, formerly assistant freight agent of the Northwestern, is in town. General Manager G. W. Holdrege of the Burlington is expected home today from his inspection of the system.

Mr. A. B. Smith, assistant general passenger and ticket arent, arrived nome Sun-day after a month's visit with friends in Bosting and the east. While absent he attended the annual meeting of general passen-ger agents at Lake Champiain and of course had a high old time

Mr. Abe Faulkner, a mighty good fellow by the way, has been appointed general passenger and ticket agent of the "Katy" Missouri, Kansas and Texas system with headquarters at St. Louis, the appointment to take effect October 1. General J. R. Buchanan of the Elkborn system has returned from Chicago where he went to attend a meeting of the Transmis-souri association. No business of any moment was transacted.

VIEWS OF THE INTERFIEWED.

William Coburn - Got home yesterday from Kentucky, the country where they don't have to behave. I saw Nancy Hanks do an easy mile in 2:06 at New Albany, and Doble didn't even try to drive fast. She is a very ordinary looking little nag, but her head ain't swelled at all, and she didn't pay any attention to the music of the bands or the cheers of the people. At the end of the fast mile men crowded onto the track by the thousands and fairly climbed over each other for a chauce to caress her. I'll bet over 200 of them kisssed her: actually kissed her, anywhere they could get their ugly mugs against her, and hundreds more reached over those in front of them in order to barely touch ner. Idiots? Of course they were, but while you are talking about that, what do you think of her owner, who refused \$170,000 for that lit-tle chunk of norsellesh last week? He will have to send her a good many exhibition miles at \$5,000 per exhibish before he gets that amount out of her on the track. Major John B. Furay-It does my heart

good to see the rollicking youngsters on their way to school, for that is where I had some of the best times of my life. There were friendly, healthy rivairies, but they never got the better of our sport. We used to wait every morning for those who lived farther Chicago Live Stock Market.

CHICAGO, Ilia, Oct. 10.—[Special Telegrain to THE BEE.]—The general cattle market was weaker. Butchers' and canners' stock, both native and range, showed more stability than did the better grades of native cattle. The supply consisted of about 12,000 natives, 6,000 Texans and 5,000 Westerns. Common to extra shipping steers were quoted at from \$2.85 to \$5.50, and poor to choice cows were sainble at from \$1.00 to \$2.75; stockers and feeders were in fair request at from \$1.50 to \$2.5. The range of prices for Texas cattle was from \$1.50 to \$5.50, and for westerns \$1.50 to \$2.50. The range of prices for Texas cattle was from \$1.50 to \$2.50. The range of prices for Texas cattle was from \$1.50 to \$2.50 away and who had to start first, and there was always a good sized company recruited before we reached the school house. The girls could throw a ball just as well as the boys, and we used to keep it hot all along the road. Then there was the foot log across the creek, just below the mill pond dam. Sometimes we used to "coon it" across, on our hands and knees, and about once a year somebody would go in heels over head. Great days were those, and they will

never come again. City Attorney Connell-I guess it is true that the city is having more trouble in get ting registrars of election this time than ever before. There are a lot of fellows who seem to think that they do not have to serve if they are appointed, but they do and we propose to fool some of them. The law is clear upon this point, and it provides for a fine of not less than \$50, nor more than \$200, to be collected from any registrar, who after being appointed, fails to qualify and serve. There are some of these people who think that they know more than the law makers. but after a few of them are fixed in the courts they may change their minds.

Dr. Towne of the Health Office—The opin

ion seems to have gone abroad that this is a general intelligence office and that we have kept cases on the human family since Noah took that noted boat ride. Here's a man who has wrirten to us to find out the name of the parents of a girl who was born in Omaha in 1860. We know several things, but we cannot plead to knowing anything about this. In 1869 Omaha had less than 10,000 people and there was no record kept of the births and deaths. Right here I want to say that there are now some doctors who require them to record the deaths and births It is only by continually punching them that we can get them to do their duty.

D. D. Walker-There is no question bu that the Lord is with the peculo this year and that this coming winter will be a very New York Live Stock Market.

New York, Oct. 10—Berves-Receipts, 5.4/8

sheep steady, lambs at Receipts, 25,346 head;
sheep steady, lambs age per 10, lower; sheep,
\$1.0665.50 per 100 lbs; rambs, \$5.25629.51; dressed
mutton steady at 7690 per lb.; dressed lambs
weak at 98,104c. mild one. There are several reasons why this prognostication can be made with accuracy. In the first place the busks on the ears of corn are upusually thin; the water and are not their usual supply of muskrats are building their houses low the

ter food; the covering of the fur bearing animals is the lightest that it has peen for years, and last but not least tho weather bone in the domestic fowl shows up well. This wenther bone is the triangular bone in the breast. If it is clear and thin you may depend upon having any amount of snow and lots of cold weather, but if it is thick and dark then you may bet upon an open winter with but little snow. This year the bone indicates a very pleasant winter. Frank E. Moores—There are some people who seem to wonder why I do not go onto the stump and help make a few votes for the

republican party this falt. This is about the easiest thing in the world to explain. I am not too proud to go out and labor with the masses, but I can do more good or the cause by staying right in my office. There I am in touch with all of the voters and can very frequent-ly put in a few words which do more good than a dozen long winded speeches delivered from the top of a dry goods box. While I'm talking I want to say that I have made several hundred republican voters during the past month and I think that that is more than the most enthusiastic stump orator can

say for himself.

A. E. Walkup—One year of experience in the marriage department of the county court fully convinces me that there are things which are beynd the power of human com-prehension and understanding. It is a fact that as winter draws near a noticeable activthat as winter or awake a a nonconstructive prevails in the wedding market. The members of the human family seem disposed to pair off in the fall, which is comething that I have never had explained to my entire satisfaction. In other classes of animal life the tion. In other classes of animal life the mating season is in the spring. I have no desire to discourage matrimony, but with coal at the present price I think that it is a needless outlay of money to commit matrimony at this season of the year.

Passed Counterfeit Money. John Endicott of Omaha was arrested yesterday upon a charge of passing counterfeit OMAHA

bear close inspection and was upped for the act. He will be tried for the offense at the November term of the United States court.

DeWitt's Sarsaparina destroys such poisons as scrofula, skin diseases, eczema, rheu-matism. Its timely use saves many lives. BIG MINING DEAL.

Mfrs. galvanized from

Cash for Some Valuable Deadwood Property Changes Hands in Omaha. Dr. Franklin R. Carpenter, late dean of the South Dakota School of Mines, is in Omaha. The doctor's visit to the city is for the purpose of closing up a mining deal of more than usual importance to Deadwood people. The deal involves the transfer of the Ross-Hannibal, Mikado and Carthage group of mines, situated about six miles west of Deadwood, in the Ruby Busin mining dis-trict, and the money to be paid for the property, \$120,000, will be paid out for the

consers, Chicago parties, by the First Na-tional bank of this city.

The mines included in the transfer are among the richest in that district, and most of them have been cullion producers for several years. Their eres carry gold and silver—a small percentage of the white metal—and are of a refractory character, necessitating their being worked by either the chlorination or pyritic smelling process. The centlemen purchasing the properties have one of the finest reduction plants of this description in the world, under the supervision of Dr. Carpenter, at Deadwood, and the ores from their new purchases will be treated there.

Dr. Carpenter had a great deal to say concerning the mineral resources the Black Hills, and declares that it is the most wonderful country in the world and that the continual working of the mines and explorations in the way of prospecting work will demonstrate that its richness and variety of mineral resources have never seen even approximated by the wildest guess of its most sanguine friends.

Cook's Extra Dry Champagne is one of the most deilcrous beverages in the market. Once tried it will always be on your table. OMARIA SCHOOL NOTES,

Mrs. Hodge has the fifth-grade room at

Miss Truland's home was consumed in Saturday night's blaze. Mrs. Keisey takes the room at St. Barnabas, left vacant by Miss Wood's resignation. It has been suggested by many that an an-

uni teachers' reception would be a happy arrangement. Mrs. Kent of Forest is seriously ill. It is feared she will never be able to return to the school room. The reception of welcome gave to Mr. and

James proved a most enjoyable occason to all present. It is rumored that a number of teachers com the interior of the state will visit the

chools on Thursday. Miss Littlefield of Park and Misses Balantype and Wolcott of Bancroft went to Beat-rice Friday evening to attend the meeting of Young People's Christian Endeavor society. The school for deaf mutes, under the supervision of Mr. Giccsspie, has this fall inroduced a kindergarten department.

formerly of Marshalltown, has charge

of the work. Mrs. Winslow's Soothing Syrup for chitiren teething is the family benefactor. 25 cents a bottle.

Criminal Court Notes.

Charley Mitchell, the young man who was charged with having broken into the dwelling of Maggie McPherson and stolen a lot of clothing, pleaded guilty to the crime of petit larceny yesterday afternoon. He was fined \$100 and costs and sentenced to thirty

days in the county jail.

The trial of Henry May will be on in Judge Dayis' court today. May is accused of having stolen a quantity of goods from Hay-den's store while he was there as a shipping

ciers. He was tried last week, but the jury failed to agree.

Judges Doane and Irvine have changed court rooms. Hereafter Judge Doane will hear equity cases in room No. 2 and Judge Irvine will preside over the jury cases in room No. 4, both in Ter Ber building.

DeWitt's Sarsaparina cleanses the 61001. Delegates to the National Meeting.

The Board of Trade held a very brief ses sion last evening. The only business trans acted was the appointment of E. H. Davis, H. T. Davis and W. N. Nason as delegates to a meeting of the National Board of Trade to be held at Chicago, October 19, to take action in regard to the improvement of country roads. Bailding Permits.
